SpongeBob SquarePants Cactus Plant Flea Market

SpongeBob SquarePants, the enduring icon created by Stephen Hillenburg for Nickelodeon in 1999, has now been recontextualized by the fine artist and modern pop culture fixture Cactus Plant Flea Market.

This limited-edition three-way partnership celebrates classic moments from the series across the last 25 years, allowing Cactus Plant Flea Market's signature hand style and humor to totally reimagine the residents of Bikini Bottom.

Remember: You Like Krabby Patties Don't You Squidward?
